Our school is in location of many schools. There are two elementary schools, industrial schools, gymnasium and also The University of Jan Evangelista Purkyně. There are many choices what you can study. For example a Faculty of Science, a Faculty of Education and famous Faculty of Art and Design.

# THE BEAUTY OF SURROUNDINGS

Vaňovský waterfall is one of the highest and most famous waterfalls in the Bohemian Central Mountains.

Tiské stěny is a sandstone and natural monument. Interesting is that The Chronicles of Narnia: The Lion, The Witch and The Wardrobe was filmed there.

There are many hills and beautiful surroundings in the Ústí nad Labem region. But one of these hills is called Radobýl near to the town of Litoměřice. This hill is not only interesting due to nature, but also due to connection with the well-known Czech writer K.H.Mácha, who ran from this Hill to the Litoměřice, where fire broke out and this writer died there.
